v.24.1

# SIZING INFORMATION

## Measuring Size With Current Glasses

In order to select the correct frame size you must either measure your existing frames or estimate your face width. All frame measurements are in millimeters so using a ruler with millimeter (metric) lines is best. If your ruler is in inches, simply multiply the number of inches by 25 to get the millimeters. For an existing frame measure from the OUTSIDE edge of each lens as shown in the image below.

If you have an existing pair of glasses, you can check the "Frame Numbers" which are usually found on the temples (arms) of the glasses.

Frame Width = Lens Width (Right Eye) + Bridge + Lens Width (Left Eye).

## No Glasses?

Then hold the ruler horizontally across your face and below your eyes. Measure the distance between left and right temples (side of head). Use your temple-to-temple width to find the total width of your glasses.

**Prison Optical Industries, Inc. 2692 Madison Rd. Ste N1 #317 Cincinnati, OH 45208**

## A Note About Our Frame Sizes

We separate our frame sizes into three categories: narrow (small), medium, and wide (large). Each pair is measured across the widest part of a lens, which is called the lens diameter. If the widest part of the lens is from top to bottom, then that would be the lens diameter. To get the millimeters for an existing frame measure from the OUTSIDE edge of each lens as shown in the image above.

## Consider Frames With Nose Pads

Nose pads are small plastic pieces secured under the bridge that rest on your nose. They give your glasses a more secure fit and make wearing them more comfortable. If you have had problems in the past with frames that slide down your nose, choose a frame with nose pads so they can be adjusted easily.

## Narrow

Our narrow fit frames have a lens diameter less than 50mm.

## Medium

Our medium fit frames have a lens diameter ranging from 50mm to 54mm.

## Wide

Our wide fit frames have a lens diameter of 55mm and up.

# SPECIAL OFFERS DETAILS

## Buy one pair, get a second pair free

RULES: Second pair must be of equal or lessor value **AND** must be from frames located on pages 36-40 (Value Frames) or reading glasses on back cover. Under buy one get a second pair free section. Free second pair is only for single-vision, clear lenses. The free pair special does not apply when the original pair is non-prescription glasses, sunglasses or safety glasses.

**PRIORITY**  
★ MAIL ★

## Free Priority Shipping on orders over \$400

RULES: Must spend \$400 or more on eyewear. Orders will be shipped by United States Postal Service Priority Mail.

## Free Cleaning Pouch on orders over \$250

RULES: Must spend \$250 or more on eyewear. Orders will have a grey draw-string cleaning pouch included.

**NOTE:** If your institution prohibits these items they may be seized; we offer no replacements.

# INSTITUTION RULES

## KNOW YOUR INSTITUTION'S RULES AND REGULATIONS:

- Are you allowed to purchase eyewear and optical accessories?
- Is prior authorization necessary for you to receive your order?
- Does your order need to be sent in care of the medical department or a specific department for you to receive it?
- Be sure to give us your prison ID number, as most institutions will return orders to us that do not have an inmate ID number on the shipping label.
- If possible, give us a contact name and phone number should we have a question or problem with your order.
- Should your institution return your glasses to us because of prison regulations, we will refund your money, less the price of the custom-made lenses, and shipping and handling charges. A refund will only be issued for the frame that can be reused. The lenses already made will have to be discarded.
- If your institution requires an invoice to be sent inside the box with the glasses, please let us know.

**Transitions™**  
light intelligent lenses™

*Transitions™ light intelligent lenses™ automatically adapt to changing light conditions.* Responding to the light around you, they intelligently change from clear to dark when you go outdoors and back to clear when you return inside.

By optimizing the amount of light your eyes receive, *Transitions™* lenses also **help reduce glare, eye fatigue and strain to create more effortless sight.**

**All Transitions lenses block 100% of UV rays and help protect against harmful blue light** from digital devices, screens and especially bright sun.

**BLOCKS 100% OF UV RAYS** **HELPS PROTECT AGAINST HARMFUL BLUE LIGHT INDOORS AND OUTDOORS**

*Transitions offers a choice of products tailored to your eyecare needs and available in a wide range of stylish lens colors so you can express your personal style.*

Enjoy a new level of fashion, function and freedom with seamless protection anytime, anywhere, indoors and out.

**SMART GLASSES WITH TRANSITIONS™ LIGHT INTELLIGENT LENSES™**

### The perfect fitting pair

FRAME WIDTH IS USUALLY THE MOST IMPORTANT FACTOR IN FINDING GLASSES THAT FIT WELL.

As a rule of thumb your eyes should be nearly centered in the width of the lenses. A frame that is too wide will make your eyes look close set while a frame that is too narrow will exaggerate the width of your face.

### Pupillary Distance (PD)

Pupillary distance is used to determine where you look through the glasses. It determines how the lenses are "centered" on the eye. To get the PD, you must measure the distance between the center of one eye to the other.

## SHAQUILLE O'NEAL™ EYEWEAR

### IMPORTANT NOTE ABOUT FRAME COLORS

Frame manufacturers are much like clothes manufacturers. They are constantly coming out with new styles and innovative color combinations. Sometimes frames can have several colors. When we (and the manufacturer) list a color, we are generally referring to the front facing part of the frame. So the front of the frame could be mostly black, the sides (temples) bright red and the nose piece green and we'd still label it black. It's crazy, but it's how it works. Generally, the pictures and notes will help you decipher what the actual colors are.

Gunmetal is roughly equivalent to gray. Gray can be anything from a silvery chrome finish to gunmetal to a greyish white. Rose is generally more of a pink tint. Navy blue can range from a very dark (almost black) to a baby-blue color. Tortoise is a speckled brown. Color, like beauty, is in the eye of the beholder.

# ORDERING INFO

## How To Order In 6 Easy Steps

1. Send in your original prescription or a photocopy. **It is required before we can process your order.**
2. Determine your best frame size by using the Frame Fitting guide on page 2.
3. Choose your frame. Make sure the size is available for what fits you.
4. Select the type of lens material and coatings you need on the order form.
5. Choose your options for tints and colors.
6. Fill in the order form with your selections and PRINT CLEARLY. ORDER BY POSTAL MAIL, TELEPHONE, FAX, INTERNET OR E-MAIL.

## What Else You Need To Know

- We can put our lenses into your optical frames but cannot be responsible for the frame should they be damaged in the process.
- We keep your complete record on file for future orders

## Shipping And Delivery

- Single vision eyeglasses are normally shipped within three weeks from when your order is received.
- Anti-reflective coated lenses, heavy prescriptions, bifocals, and progressives may take a bit longer.
- Claims for orders not received must be made within 45 days of the order date.

## Express Mail

All orders shipped express mail will be delivered to you 1-2 business days from the time we ship it. Please note that express mail takes longer in some areas and is not available on all orders.

## Priority Mail

Faster shipping at a reasonable cost from the Postal Service. If you live in a major market area your order can be shipped 2-day priority mail as soon as it is ready. Outside a major market it takes about 3-4 days. The Post Office does not guarantee the exact time of delivery, but it is still faster than regular first-class mail. Expedited Priority Mail is \$25.00.

## Telephone, Fax, Email

Telephone Orders – 1-800-637-4104

Fax Orders – 1-800-637-4104

E-mail Orders – [info@prisonoptical.com](mailto:info@prisonoptical.com)

## Customer Service

To speak to our customer service specialists, call 800-637-4104.

All calls will be returned within 24 hours. For quicker service, Text 800-637-4104 or email [info@prisonoptical.com](mailto:info@prisonoptical.com).

## Communication

We accept JPAY 

**Prison Optical Industries, Inc**  
**2692 Madison Rd. Suite N1, #317 • Cincinnati, OH 45208**

## IRON-CLAD GUARANTEE

Prison Optical, hereby guarantees that your eyeglasses will:

- Look right on your face
- Fit just right over your ears, eyes & nose bridge
- Have the right prescription, just as your doctor ordered it

You have a full month from the time you receive your glasses to examine them. If you are not fully satisfied you can return your order for a full, prompt refund!

## UNDER ONE YEAR EXTENDED FRAME WARRANTY

No matter what you do to your frames: drop them, sit on them, step on them:

Prison Optical, at its discretion, will repair or replace the frames for a full year from date of purchase. Simply mail in the broken frames with all the parts (there will be an additional charge for any missing parts) and include \$75.00 for labor, shipping and handling. Your repaired or replaced glasses will be on their way to you in just a few days.

This warranty does not cover:

- Lenses. If lenses need to be replaced, please be sure to include payment for the new lenses. See order form.
- Frames not listed in this catalog. Manufacturer warranty will apply.
- Frames that have been glued or soldered.

# CHOOSING THE BEST LENSES FOR YOUR GLASSES

If you are looking for just a basic pair of glasses – stop reading now. This section is for those who want the BEST optical quality to their eyeglasses. Here are the BIG four that turn ordinary glasses into something special!

## Extended Scratch Resistance with one year warranty

\$49.00

We call this SafeGuard Len Warranty. Anyone who has worn glasses knows that scratches are a big problem. We coat our lenses with a special hardcoat so they are less likely to occur. It's the best \$49 you'll ever spend.

## UV Coating

\$78.00

The totally clear UV coating will block harmful ultra-violet sun rays from damaging your eyes. Studies have shown UV light is responsible for increasing the risk of cataracts and macular degeneration later in life. This small step of UV block can really have a huge benefit.

## Anti Glare Coating

\$140.00

With uncoated lenses the surface will reflect light in all directions, increasing glare. Scientists have developed a coating that blocks these light reflections. You will see much better and anyone looking at you won't see light reflecting off your glasses. We only use Premium anti-glare coatings, the same as high quality camera lenses.

## Polished Edges

\$25.00

Using polished edges is one of the best kept secrets in the optical industry so you have to specifically request it. Instead of having the edges of your lenses frosted, we polish them clear. It's more work for us, but so worth it for you! This has both cosmetic and optical benefits. And for the cost, it's an easy choice.

## PACKAGE DEAL

Add all four of the above treatments for

**\$197.00**

## SAVE

**\$95.00**  
OFF LIST PRICE

Your lenses will be premium quality and you'll be guaranteed the best vision possible.
